

Directions (1-15): Each question consists of some statements followed by some conclusions. Consider the statements to be true even if they are in variance with the commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follow from the given statements and accordingly mark your answer :

1. Statements:

No add is divide

All multiply are divide

Some divide are subtract

Conclusions:

I. Some add are subtract

II. No multiply is subtract

(a) Either conclusion I or conclusion II follows.

(b) Both conclusion I and conclusion II follow.

(c) Neither conclusion I nor conclusion II follows.

(d) Only conclusion I follows.

(e) Only conclusion II follows.

2. Statements:

Some bottle are plate

All plate are glass

No plate is spoon

Conclusions:

I. All plate being bottle is a possibility

II. No spoon is bottle

(a) Either conclusion I or conclusion II follows.

(b) Both conclusion I and conclusion II follow.

(c) Neither conclusion I nor conclusion II follows.

(d) Only conclusion I follows.

(e) Only conclusion II follows.

3. Statements:

All A are B

No B is C

All C is D

Conclusions:

I. No D is A

II. Some C are A

- (a) Either conclusion I or conclusion II follows.
- (b) Both conclusion I and conclusion II follow.
- (c) Neither conclusion I nor conclusion II follows.
- (d) Only conclusion I follows.
- (e) Only conclusion II follows.

4. Statements:

Some Red are Pink

Some Pink are Yellow

Some Yellow are Red

Conclusions:

I. No Red is Yellow

II. All Pink being Yellow is a possibly

- (a) Either conclusion I or conclusion II follows.
- (b) Both conclusion I and conclusion II follow.
- (c) Neither conclusion I nor conclusion II follows.
- (d) Only conclusion I follows.
- (e) Only conclusion II follows.

5. Statements:

30% father are mother

15% mother are son

97% son are daughter

Conclusions:

I. Some father are son

II. Some father are daughter

- (a) Either conclusion I or conclusion II follows.
- (b) Both conclusion I and conclusion II follow.
- (c) Neither conclusion I nor conclusion II follows.
- (d) Only conclusion I follows.
- (e) Only conclusion II follows.

6. Statements:

All laptop are mouse.

All mouse are keyboard.

All keyboard are desktop.

Conclusions:

I. All mouse are desktop.

II. All keyboard are mouse.

- (a) Either conclusion I or conclusion II follows.
- (b) Both conclusion I and conclusion II follow.
- (c) Neither conclusion I nor conclusion II follows.
- (d) Only conclusion I follows.
- (e) Only conclusion II follows.

7. Statements:

Some light are TV.

Some TV are AC.

Some AC are fan.

Conclusions:

I. Some fan are TV.

II. Some TV are light.

- (a) Either conclusion I or conclusion II follows.
- (b) Both conclusion I and conclusion II follow.
- (c) Neither conclusion I nor conclusion II follows.
- (d) Only conclusion I follows.
- (e) Only conclusion II follows.

8. Statements:

All UK are USA.

Some USA are India.

Some India are Japan.

Conclusions:

I. Some India are UK.

II. Some Japan are USA.

- (a) Either conclusion I or conclusion II follows.
- (b) Both conclusion I and conclusion II follow.
- (c) Neither conclusion I nor conclusion II follows.
- (d) Only conclusion I follows.
- (e) Only conclusion II follows.

9. Statements:

Some happy are sad.

Some sad are laugh.

All laugh are cry.

Conclusions:

I. Some cry are sad.

II. Some cry are laugh.

- (a) Either conclusion I or conclusion II follows.
- (b) Both conclusion I and conclusion II follow.
- (c) Neither conclusion I nor conclusion II follows.
- (d) Only conclusion I follows.
- (e) Only conclusion II follows.

10. Statements:

Some oxygen are carbon.

Some carbon are nitrogen.

All nitrogen are hydrogen.

Conclusions:

I. Some hydrogen are oxygen.

II. No hydrogen is oxygen.

- (a) Either conclusion I or conclusion II follows.
- (b) Both conclusion I and conclusion II follow.
- (c) Neither conclusion I nor conclusion II follows.
- (d) Only conclusion I follows.
- (e) Only conclusion II follows.

11. Statements:

Some gold are silver.

Some silver are copper.

All copper are iron.

Conclusions:

I. Some iron are silver.

II. Some iron are gold.

- (a) Either conclusion I or conclusion II follows.
- (b) Both conclusion I and conclusion II follow.
- (c) Neither conclusion I nor conclusion II follows.
- (d) Only conclusion I follows.
- (e) Only conclusion II follows.

12. Statements:

All water are air.

Some air are sky.

All sky are wind.

Conclusions:

I. Some wind are water.

II. Some wind are air.

- (a) Either conclusion I or conclusion II follows.
- (b) Both conclusion I and conclusion II follow.
- (c) Neither conclusion I nor conclusion II follows.
- (d) Only conclusion I follows.
- (e) Only conclusion II follows.

13. Statements:

Some fish are egg.

Some egg are meat.

Some meat are protein.

Conclusions:

I. Some protein are fish.

II. Some protein are egg.

- (a) Either conclusion I or conclusion II follows.
- (b) Both conclusion I and conclusion II follow.
- (c) Neither conclusion I nor conclusion II follows.
- (d) Only conclusion I follows.
- (e) Only conclusion II follows.

14. Statements:

All clip are tap.

All tap are pot.

All pot are pan.

Conclusions:

I. Some pan are clip.

II. Some pot are clip.

- (a) Either conclusion I or conclusion II follows.
- (b) Both conclusion I and conclusion II follow.
- (c) Neither conclusion I nor conclusion II follows.
- (d) Only conclusion I follows.
- (e) Only conclusion II follows.

15. Statements:

Some day are night.

All night are noon.

All noon are evening.

Conclusions:

I. Some evening are day.

II. Some noon are not day.

(a) Either conclusion I or conclusion II follows.

(b) Both conclusion I and conclusion II follow.

(c) Neither conclusion I nor conclusion II follows.

(d) Only conclusion I follows.

(e) Only conclusion II follows.

16. Statements:

All flower are fruit.

All country are flower.

All fruit are city.

Conclusions:

I. All city are country is a possibility.

II. Some city which are flower also a part of country.

(a) Either conclusion I or conclusion II follows.

(b) Both conclusion I and conclusion II follow.

(c) Neither conclusion I nor conclusion II follows.

(d) Only conclusion I follows.

(e) Only conclusion II follows.

17. Statements:

Some sun are moon.

All moon are earth.

Some earth are galaxy.

All star are galaxy.

Conclusions:

I. Some sun are galaxy.

II. Some star are earth.

III. Some earth are sun.

IV. All galaxy are star.

(a) None follows

(b) Only II follows

(c) Only II and III follow

(d) Only III follows

(e) None of these

18. Statements:

All A are B.

All B are C.

Some C are D.

All D are E.

Conclusions:

I. All E are B.

II. Some C are E.

III. All B are A.

IV. All A are C.

(a) Only II follows

(b) Only II and IV follow

(c) Only III and IV follow

(d) Only I and III follow

(e) None of these

19. Statements:

Some right are wrong.

Some wrong are true.

All true are false.

No false is a correct.

Conclusions:

I. Some false are right.

II. Some true are correct.

III. Some right are true.

IV. No correct is a true.

(a) None follows

(b) Only I follows

(c) Only either II or IV follows

(d) Only IV follows

(e) None of these

20. Statements:

Some guitar are piano.

All piano are herp.

All herp are keyboard.

All keyboard are violin.

Conclusions:

I. Some guitar are violin.

II. All keyboard are guitar.

III. All violin are herp.

IV. All guitar are keyboard.

(a) Only IV follows

(b) Only either II or III follow

(c) Only III follows

(d) Only I follows

(e) None follows

21. Statements :

Some apple are grapes.

Some grapes are banana.

Some banana are orange.

Conclusions :

I. Some orange are grapes.

II. Some banana are apple.

III. Some orange are not grapes.

(a) Only I follows

(b) Only II follows

(c) Only III follows

(d) None follows

(e) None of these

22. Statements :

Some circle are square.

All square are cube.

Some cube are cone.

Conclusions :

I. Some cone are circle.

II. Some cube are circle.

III. No cone is circle.

(a) Only I follows

(b) Only II follows

(c) Only either I or III and II follow

(d) Only either I or III follows

(e) None of these

23. Statements :

Some bulb are book.

Some book are bean.

All bean are boat.

Conclusions :

I. Some boat can be book.

II. Some boat are bulb.

III. Some bean are bulb.

(a) Only I follows

(b) Only II follows

(c) Only III follows

(d) None follow

(e) None of these

24. Statements :

All cook are chef.

All chef are artist.

Some artist are dancer.

Conclusions :

I. Some dancer are not cook.

II. Some artist are cook.

III. Some chef are not cook.

(a) Only I and II follow

(b) Only II and III follow

(c) Only I and III follow

(d) All follow

(e) None of these

25. Statements :

Some story are poem.

No poem is poet.

All poet are song.

Conclusions :

I. No song is story.

II. Some poet are story.

III. Some song are poem.

(a) None follows

(b) Only I follows

(c) Only II follows

(d) Only III follows

(e) Only II and III follow

26. Statements :

All W are X.

All X are Y.

Some Y are Z.

Conclusions :

I. Some Z are X.

II. Some Z are W.

III. Some Y are W.

(a) None follows

(b) Only I follows

(c) Only II follows

(d) Only III follows

(e) Only II and III follow

27. Statements:

Some house are home.

Some home are road.

Some road are town.

Conclusions:

I. Some road are house.

II. Some house are town.

III. Some town are home.

(a) None follows

(b) Only 1 follows

(c) Only II follows

(d) Only III follows

(e) All follow

28. Statements:

Some A are B.

All B are C.

Some C are D.

Conclusions:

I. All A are B.

II. Some C are B.

III. No D is a A.

(a) Only I follows

(b) Only II follows

(c) Only either I or III and II follow

(d) Only either I or III follows

(e) None of these

29. Statements:

All red are blue.

Some blue are yellow.

All yellow are green.

Conclusions:

I. Some green are red.

II. Some green are blue.

III. Some yellow are red.

(a) None follows

(b) Only I follows

(c) Only II follows

(d) Only I and II follow

(e) Only II and III follow

30. Statements:

Some root are tree

All tree are leaf.

All leaf are wood.

Conclusions:

I. Some wood are root.

II. Some leaf are root.

III. Some wood are tree.

(a) Only I follows

(b) Only II follows

(c) Only III follows

(d) Only II and III follow

(e) All follow

31. Statements:

All what are who.

No how is who.

All which are how.

Conclusions:

I. No which is what.

II. No which is who.

III. No how is what.

(a) None follows

(b) Only III follows

(c) Only I and II follow

(d) Only II and III follow

(e) All follow

32. Statements:

Some nose are ear.

Some ear are eye.

All eye are face.

Conclusions:

I. Some face are ear.

II. Some eye are nose.

III. Some face are nose.

(a) Only II follows

(b) Only III follows

(c) Only I and II follow

(d) Only I and III follow

(e) None of these

33. Statements:

Some pen are pencil.

All pencil are eraser.

Some eraser are copy.

Conclusions:

I. Some pen are copy.

II. Some eraser are pen.

III. Some copy are pencil.

(a) Only I follows

(b) Only II follows

(c) Only III follows

(d) Only I and II follows

(e) None of these

34. Statements:

Some colour are fun.

Some fun are joy.

Some joy are hope.

Conclusions:

I. Some hope are fun.

II. Some joy are colour.

III. No hope is fun.

(a) Only II follows

(b) Only III follows

(c) Either I or III follows

(d) Either II or III follows

(e) None of these

35. Statements:

All P are Q.

All Q are R.

All R are S.

Conclusions:

I. Some S are Q.

II. All Q are S.

III. Some R are P.

(a) Only I and II follow

(b) Only I and III follow

(c) Only II and III follow

(d) All follow

(e) None of these

36. Statements:

All cricket are football.

Some football are chess.

No chess is carrom.

Conclusions:

I. Some chess are cricket.

II. No cricket is carrom.

III. Some football are carrom.

(a) None follows

(b) Only I follows

(c) Only II follows

(d) Only III follows

(e) Only I and II follow

37. Statements:

All room are hall.

All kitchen are hall.

All garden are hall.

Some garden are kitchen.

Conclusions :

I. Some garden are room.

II. All hall are kitchen.

III. Some hall are garden.

IV. Some kitchen are room.

(a) None follows

(b) Only I follows

(c) Only II follows

(d) Only II and III follow

(e) None of these

38. Statements:

All plus are minus.

Some minus are add.

Some add are subtract.

All subtract are average.

Conclusions:

I. Some average are add.

II. Some add are both average and minus.

III. Some minus are plus.

IV. Some average are not subtract.

(a) None follows

(b) All follow

(c) Only I and III follow

(d) Only I and IV follow

(e) None of These

39. Statements :

All good are bad.

All evil are bad.

All evil are ghost.

Conclusions :

I. Some ghost are bad.

II. Some good are ghost.

III. Some good are evil.

(a) Only II follows

(b) Only I follows

(c) Only III follows

(d) Either II or III follows

(e) None of these

40. Statements:

All on are in.

Some on are above.

No under are in.

Conclusions:

I. Some above are under.

II. No on are under.

III. Some above are in.

(a) Only II and III follow

(b) Only I, and III follow

(c) either III and I follow

(d) Only II, III and I follow

(e) None of these

41. Statements :

All cream are powder.

All powder are lipstick.

All kajal are lipstick.

Conclusions

I. Some powder are kajal.

II. Some lipstick are cream.

III. All cream are lipstick.

(a) Only I follows

(b) Only II follows

(c) Only III follows

(d) Only II and III follow

(e) None of these

42. Statements :

Some mat are map.

All map are mop.

All money are mop.

Conclusions:

I. All money are map.

II. Some mat are mop.

III. Some money are mat.

(a) Only I follows

(b) Only II follows

(c) Only III follows

(d) Only I and II follow

(e) None of these

43. Statements :

Some job are employment.

All employment are vacancy.

Some recruitment are employment.

Conclusions

I. Some vacancy are recruitment.

II. Some job are vacancy.

III. All vacancy are employment.

(a) Only I and III follow

(b) Only II follows

(c) Only I and II follow

(d) Only III follows

(e) None of these

Directions (44-46): Each question consists of some statements followed by some conclusions. Consider the statements to be true even if they are in variance with the commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follow from the given statements and accordingly mark your answer :

44. Conclusions:

- I. All hot being cold is a possibility.
- II. No warm is a cool.
- (a) Either conclusion I or conclusion II follows.
- (b) Both conclusion I and conclusion II follow.
- (c) Neither conclusion I nor conclusion II follows.
- (d) Only conclusion I follows.
- (e) Only conclusion II follows.

45. Conclusions:

- I. All warm being hot is a possibility.
- II. At least some cool are hot.
- (a) Either conclusion I or conclusion II follows.
- (b) Both conclusion I and conclusion II follow.
- (c) Neither conclusion I nor conclusion II follows.
- (d) Only conclusion I follows.
- (e) Only conclusion II follows.

46. Conclusions:

- I. At least some warm are cool.
- II. No warm is hot.
- (a) Either conclusion I or conclusion II follows.
- (b) Both conclusion I and conclusion II follow.
- (c) Neither conclusion I nor conclusion II follows.
- (d) Only conclusion I follows.
- (e) Only conclusion II follows.

47. Statements:

All car are train.

All train are auto.

Some auto are bus.

Conclusions:

- I. At least some train are bus.
- II. No train is a bus.
- (a) Either conclusion I or conclusion II follows.
- (b) Only conclusion II follows.
- (c) Neither conclusion I nor conclusion II follows.
- (d) Only conclusion I follows.
- (e) Both conclusion I and conclusion II follow.

48. Statements :

All kite are cloud.

Some cloud are cloth.

No cloth is a copy.

Conclusions :

I. All cloud can never be copy.

II. Atleast some cloud are kite.

- (a) Either conclusion I or conclusion II follows.
- (b) Both conclusion I and conclusion II follow.
- (c) Neither conclusion I nor conclusion II follows.
- (d) Only conclusion I follows.
- (e) Only conclusion II follows.

49. Statements:

All man are woman.

Some woman are girl.

Some girl are boy.

Conclusions:

I. Some boy are woman.

II. Some boy are man.

III. Some girl can be woman.

- (a) None follows
- (b) Only I follows
- (c) Only II follows
- (d) Only III follows
- (e) Only II and III follow

50. Statements:

All A are B.

Some C are A.

Some D are B.

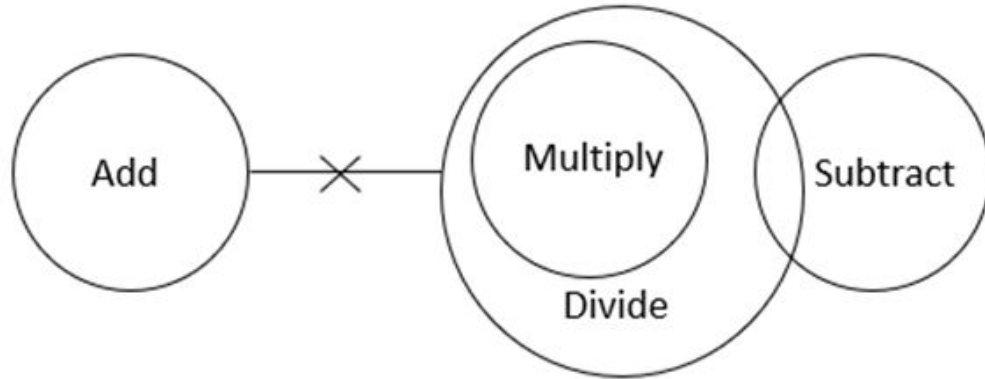

Conclusions:

I. No D is a C is a possibility.

II. Some A which are B they must be a part of C.

- (a) Either conclusion I or conclusion II follows.
- (b) Both conclusion I and conclusion II follow.
- (c) Neither conclusion I nor conclusion II follows.
- (d) Only conclusion I follows.
- (e) Only conclusion II follows.

1. Answer: C

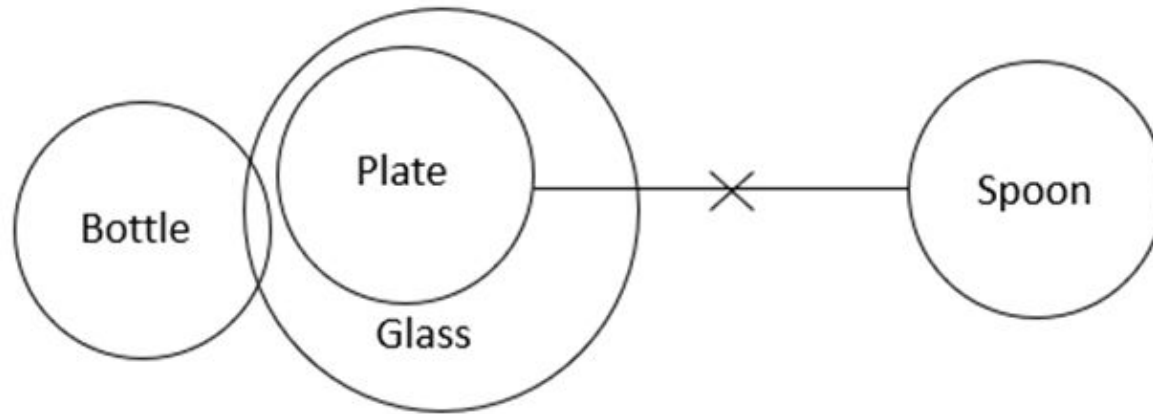

Conclusions:

- I. Some add are subtract (False, as no direct relation is given between these two)
- II. No multiply is subtract (False, as no direct relation is given between these two)

2. Answer: D

Solution:

Conclusions:

- I. All plate being bottle is a possibility (True, as no direct relation is given between these two so the possibility is true)
- II. No spoon is bottle (False, as no direct relation is given between these two)

3. Answer: C

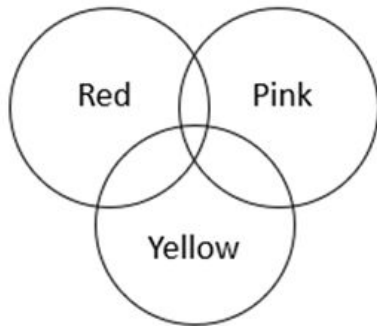

Solution:

Conclusions:

- I. No D is A (False, as no direct relation is given between these two)
- II. Some C are A (False, as no B is C therefore no A is C)

4. Answer: E

Solution:

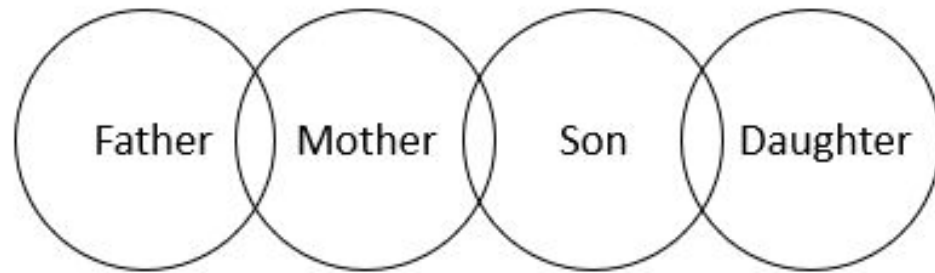

Conclusions:

- I. No Red is Yellow (False, as it is given in the statement that some yellow is red)
- II. All Pink being Yellow is a possibility (True, as there is no negative relation is stated between these two therefore the possibility is true)

5. Answer: C

Solution:

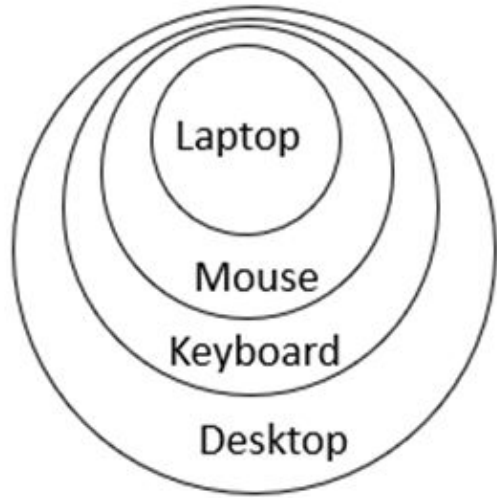

Conclusions:

- I. Some father are son (False, as no direct relation is given between these two)
- II. Some father are daughter (False, as no direct relation is given between these two)

6. Answer: D

Solution:

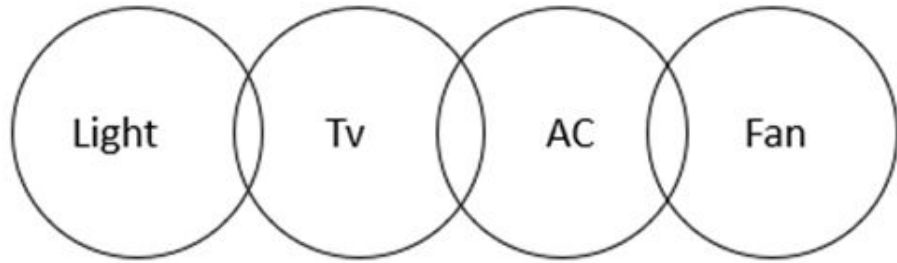

Conclusions:

- I. All mouse are desktop (True, as all mouse is keyboard and all keyboard are desktop)
- II. All keyboard are mouse (False, as it is stated that all mouse is keyboard but there is no mention of the reverse statement)

7. Answer: E

Solution:

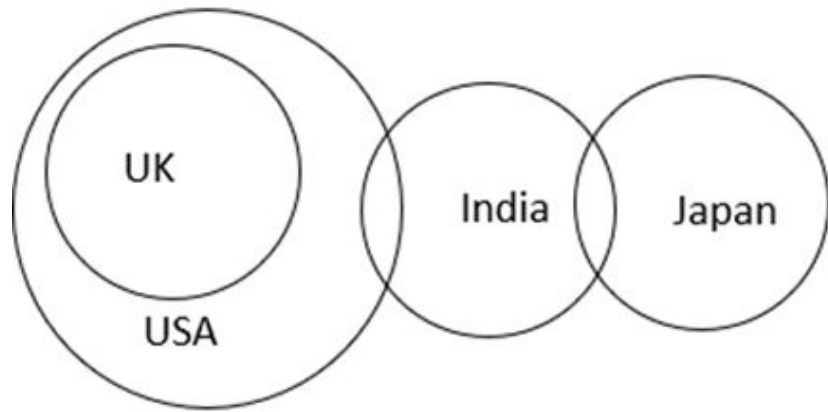

Conclusions:

- I. Some fan are TV (False, as no direct relation is given between these two)
- II. Some TV are light (True, as is mentioned in the statement)

8. Answer: C

Solution:

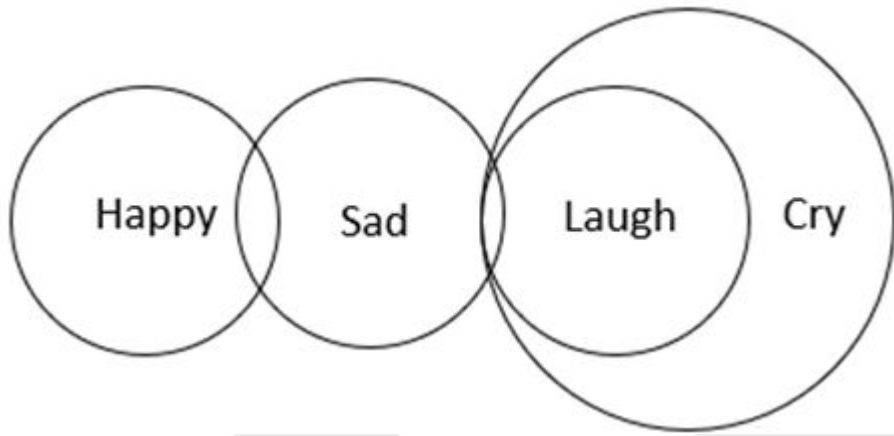

Conclusions:

- I. Some India are UK (False, as no direct relation is given between these two)
- II. Some Japan are USA (False, as no direct relation is given between these two)

9. Answer: B

Solution:

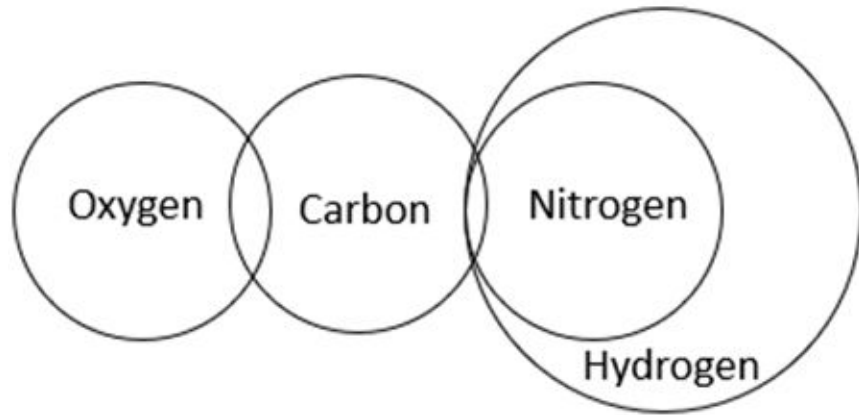

Conclusions:

- I. Some cry are sad (True, as some laugh which is sad is cry)
- II. Some cry are laugh (True, as we know all laugh is cry so definitely some cry are laugh)

10. Answer: A

Solution:

Conclusions:

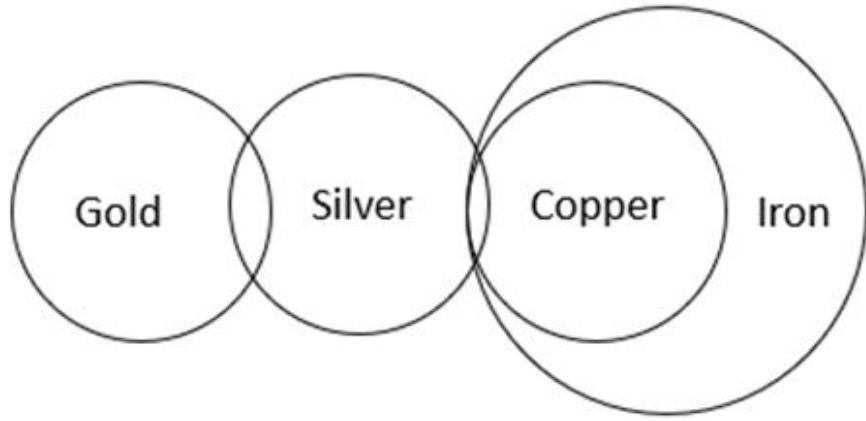

I. Some hydrogen are oxygen (False, as no direct relation is given between these two)

II. No hydrogen is oxygen (False, as no direct relation is given between these two)

Here, there are two possibilities between hydrogen and oxygen. Either some hydrogen is oxygen or no hydrogen is oxygen. Hence, the case will be either or.

11. Answer: D

Solution:

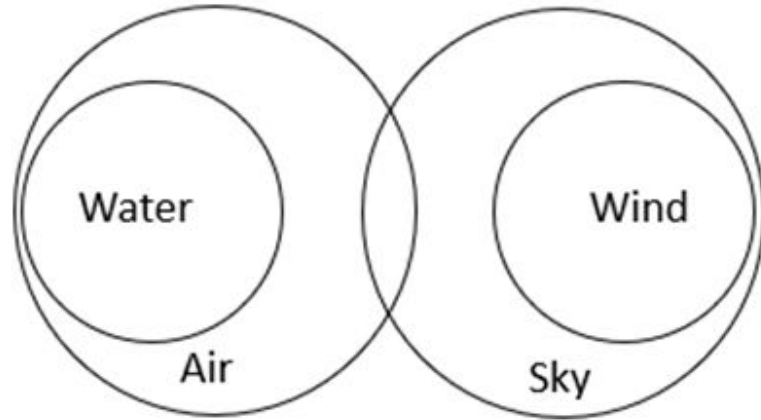

Conclusions:

- I. Some iron are silver (True, as some iron which is copper is silver)
- II. Some iron are gold (False, as no direct relation is given between these two)

12. Answer: C

Solution:

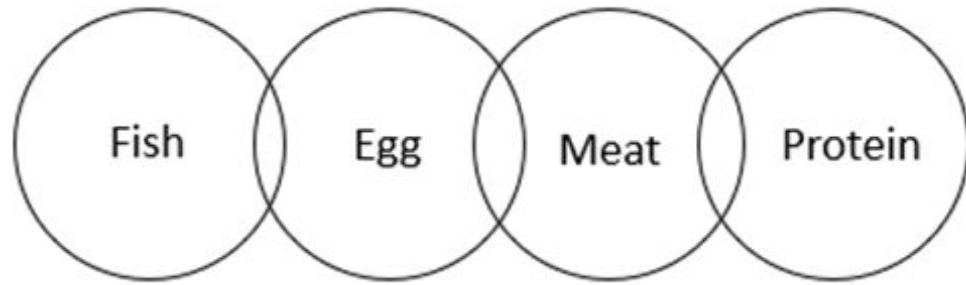

Conclusions:

- I. Some wind are water (False, as no direct relation is given between these two)
- II. Some wind are air (False, as no direct relation is given between these two)

13. Answer: C

Solution:

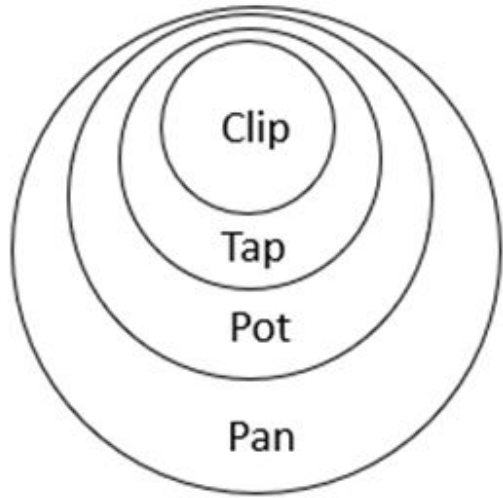

Conclusions:

- I. Some protein are fish (False, as no direct relation is given between these two)
- II. Some protein are egg (False, as no direct relation is given between these two)

14. Answer: B

Solution:

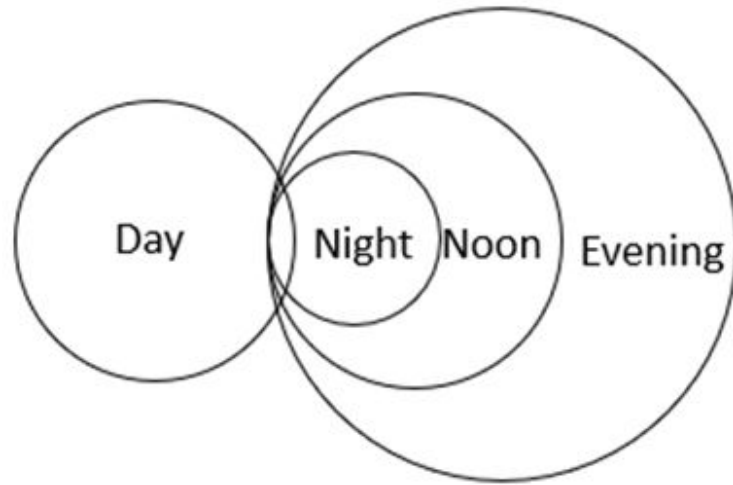

Conclusions:

- I. Some pan are clip (True, as all clip are pan so some pan are clip)
- II. Some pot are clip (True, as all clip are pot so some pot are clip)

15. Answer: D

Solution:

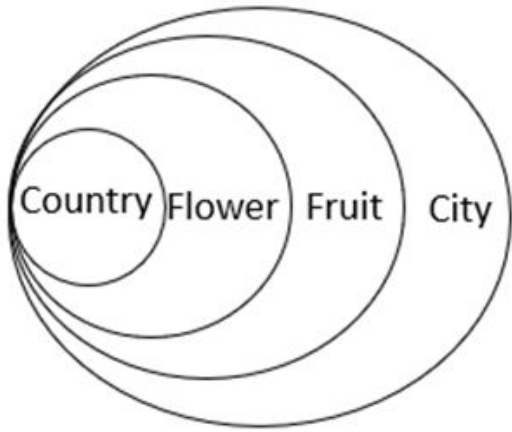

Conclusions:

- I. Some evening are day (True, as some evening which is night is day)
- II. Some noon are not day (False, as some noon which is night is day)

16. Answer:

Solution:

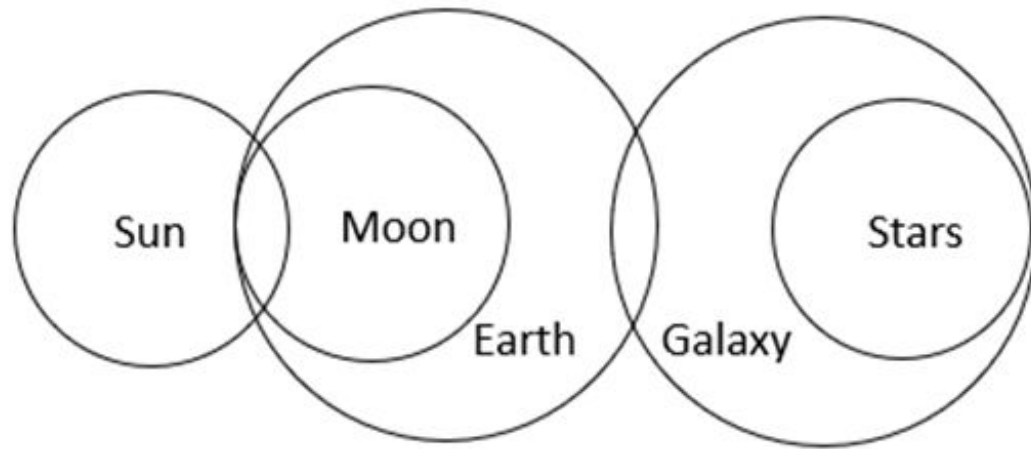

Conclusions:

- I. All city are country is a possibility (True, we know some city is country and no negative statement is given so the possibility is true)
- II. Some city which are flower also a part of country (False, as we don't know whether all flower is country or not therefore it is not true)

17. Answer:

Solution:

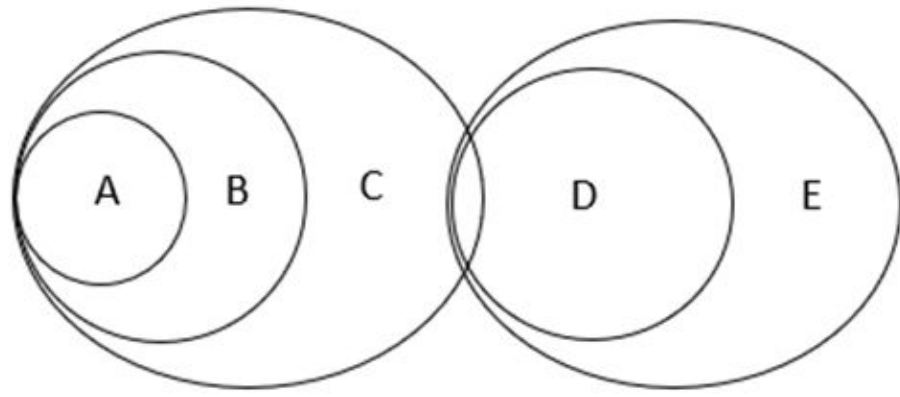

Conclusions:

- I. Some sun are galaxy (False, as no direct relation is given between these two)
- II. Some star are earth (False, as no direct relation is given between these two)
- III. Some earth are sun (True, some sun which is moon is earth)
- IV. All galaxy are star (True, as all stars are galaxy so definitely some galaxy are star)

18. Answer: B

Solution:

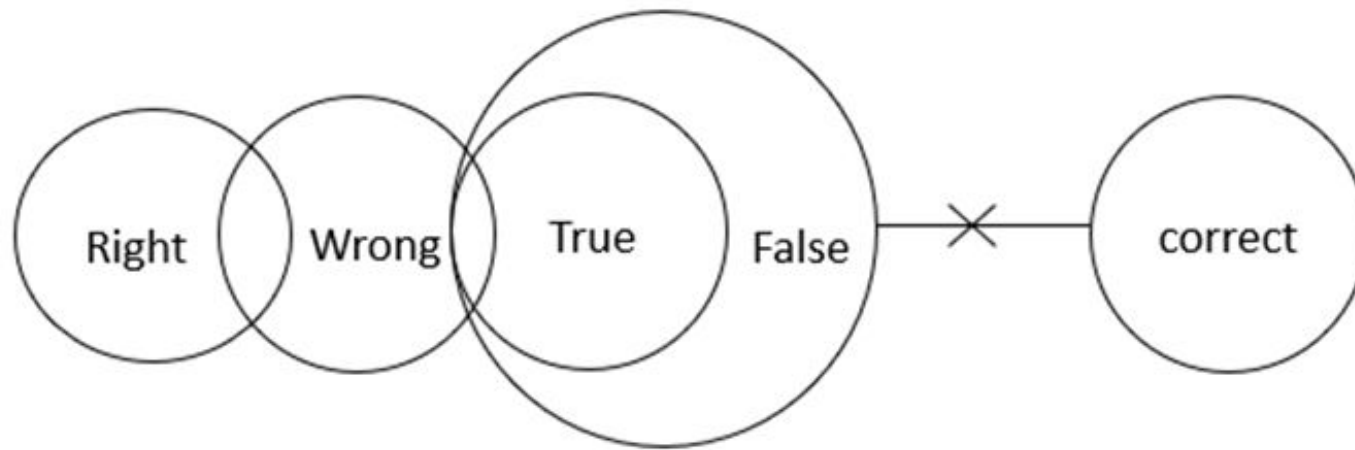

Conclusions:

- I. All E are B (False, as no direct relation is given between these two)
- II. Some C are E (True, as some C which is D is E)
- III. All B are A (False, as we know all A are B but the reverse statement is not true)
- IV. All A are C (True, as all A are B and all B are C)

19. Answer: D

Solution:

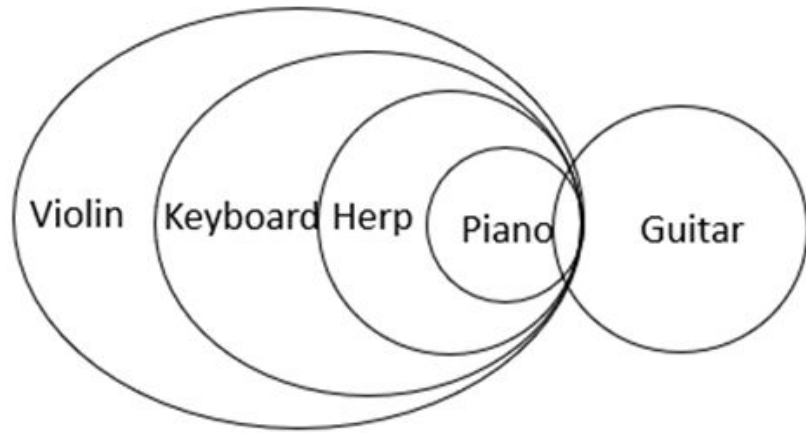

Conclusions:

- I. Some false are right (False, as no direct relation is given between these two)
- II. Some true are correct (False, as no false is correct)
- III. Some right are true (False, as no direct relation is given between these two)
- IV. No correct is a true (True, as no false is correct)

20. Answer: E

Solution:

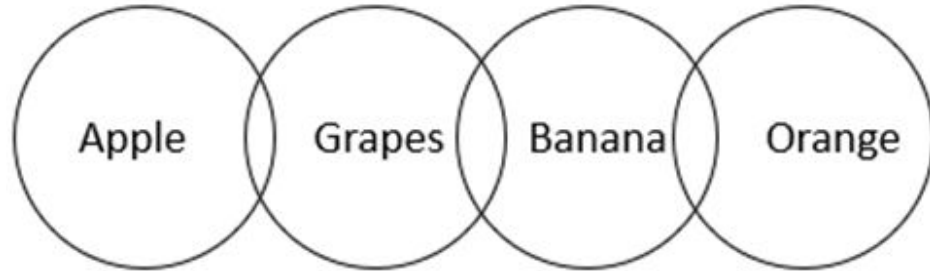

Conclusions:

- I. Some guitar are violin (True, as some piano which is guitar is violin)
- II. All keyboard are guitar (False, as we know some herp which is piano is guitar but for the all other part of harp there is nothing such mentioned)
- III. All violin are herp (False, as all herp are violin but the reverse statement is not true)
- IV. All guitar are keyboard (False, as we know some guitar which is piano is keyboard but for the all other part of guitar there is nothing such mentioned)

21. Answer: E

Solution:

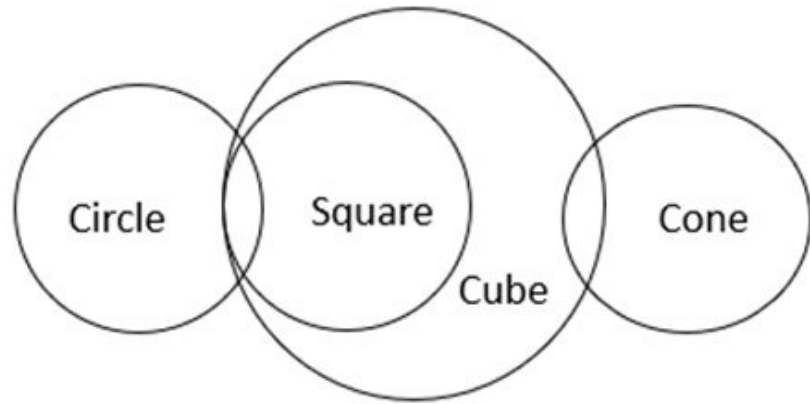

Conclusions :

- I. Some orange are grapes (False, as no direct relation is given between these two)
- II. Some banana are apple (False, as no direct relation is given between these two)
- III. Some orange are not grapes (False, as no direct relation is given between these two)

Here, there are two possibilities between orange and grapes. Either some orange is grapes or some orange is not grapes. Hence, the case I and III will be either or.

22. Answer: C

Solution:

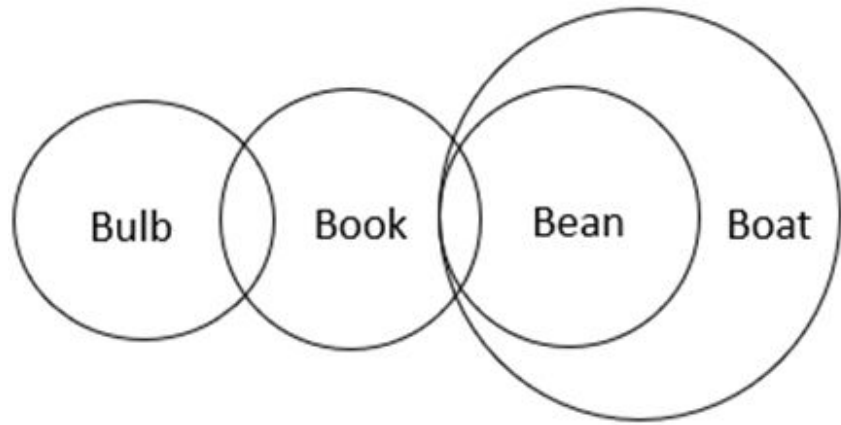

Conclusions :

- I. Some cone are circle (False, as no direct relation is given between these two)
- II. Some cube are circle (True, as some square which is cube is circle)
- III. No cone is circle (False, as no direct relation is given between these two)

Here, there are two possibilities between cone and circle. Either some cone is circle or no cone is circle. Hence, the case I and III will be either or.

23. Answer: D

Solution:

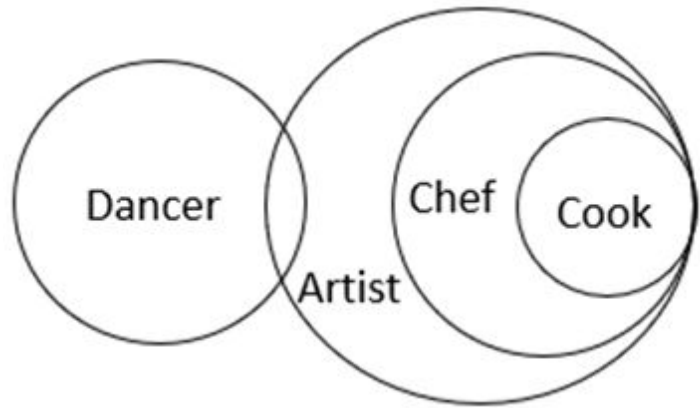

Conclusions :

- I. Some boat can be book (False, as it is a definite case)
- II. Some boat are bulb (False, as no direct relation is given between these two)
- III. Some bean are bulb (False, as no direct relation is given between these two)

24. Answer: E

Solution:

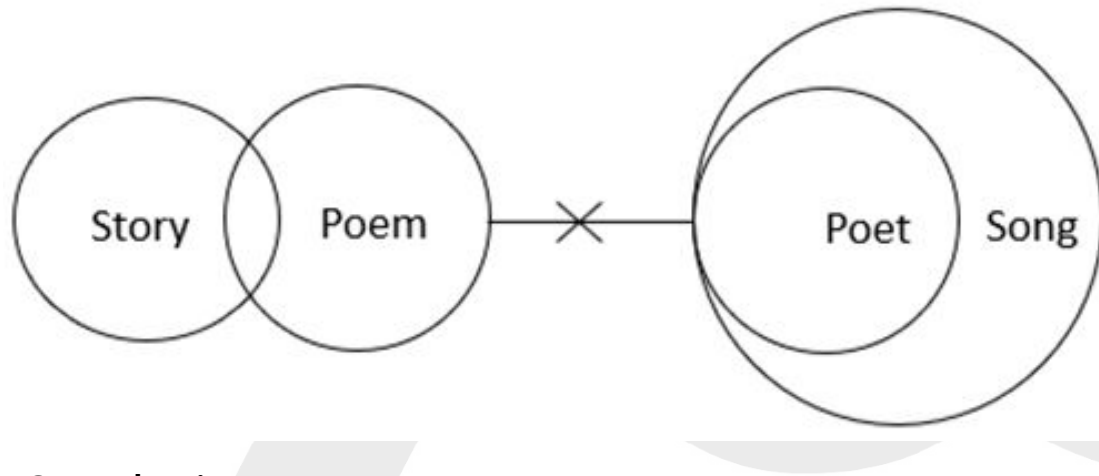

Conclusions :

- I. Some dancer are not cook (False, as no direct relation is given between these two)
- II. Some artist are cook (True, as all cook are artist so definitely some artist are cook)
- III. Some chef are not cook (False, as no direct relation is given between these two)

25. Answer: A

Solution:

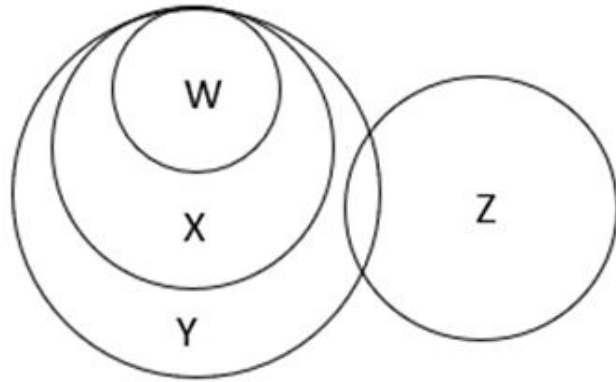

Conclusions :

- I. No song is story (False, as no direct relation is given between these two)
- II. Some poet are story (False, as no direct relation is given between these two)
- III. Some song are poem (False, as no direct relation is given between these two)

26. Answer: D

Solution:

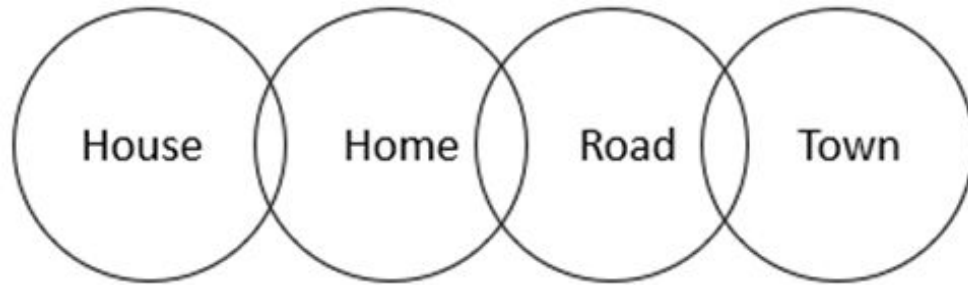

Conclusions :

- I. Some Z are X (False, as no direct relation is given between these two)
- II. Some Z are W (False, as no direct relation is given between these two)
- III. Some Y are W (True, as all W is Y so definitely some Y is W)

27. Answer: A

Solution:

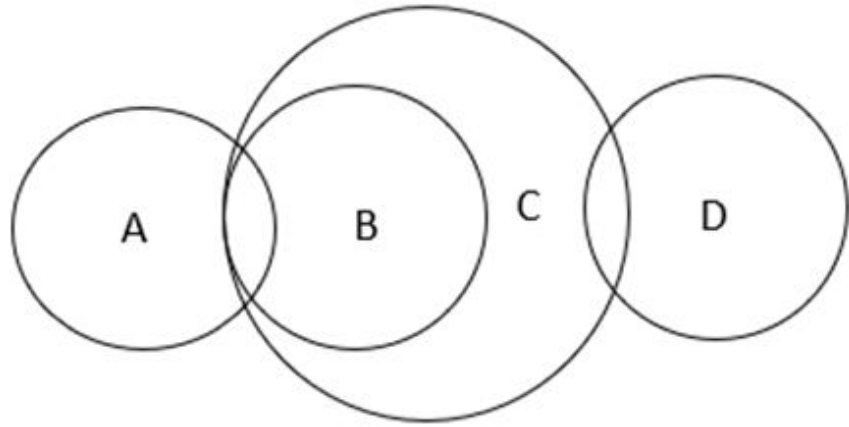

Conclusions:

- I. Some road are house (False, as no direct relation is given between these two)
- II. Some house are town (False, as no direct relation is given between these two)
- III. Some town are home (False, as no direct relation is given between these two)

28. Answer:

Solution:

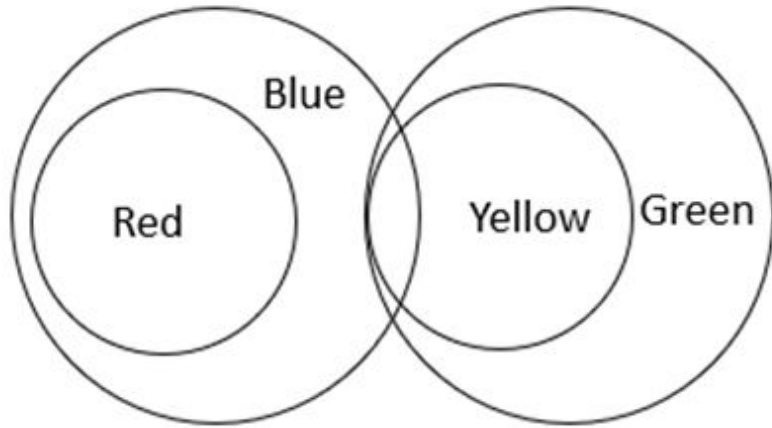

Conclusions:

- I. All A are B (False, as we know some A are B)
- II. Some C are B (True, as it's given in the statement)
- III. No D is a A (False, as no direct relation is given between these two)

29. Answer: C

Solution:

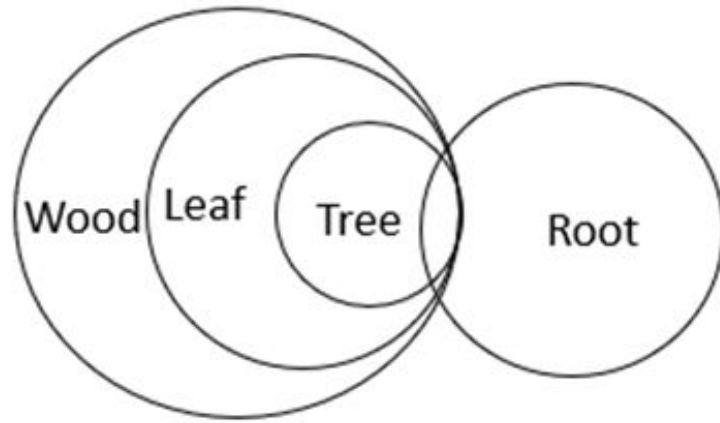

Conclusions:

- I. Some green are red (False, as no direct relation is given between these two)
- II. Some green are blue (True, some yellow which is green is blue)
- III. Some yellow are red (False, as no direct relation is given between these two)

30. Answer: E

Solution:

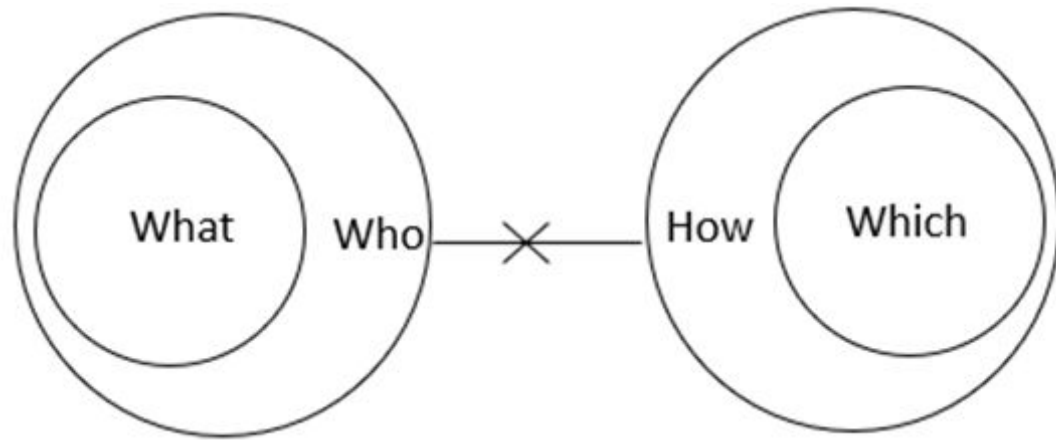

Conclusions:

- I. Some wood are root (True, as some tree which is wood is root)
- II. Some leaf are root (True, as some tree which is leaf is root)
- III. Some wood are tree (True, as all tree are wood so definitely some wood are tree)

31. Answer: E

Solution:

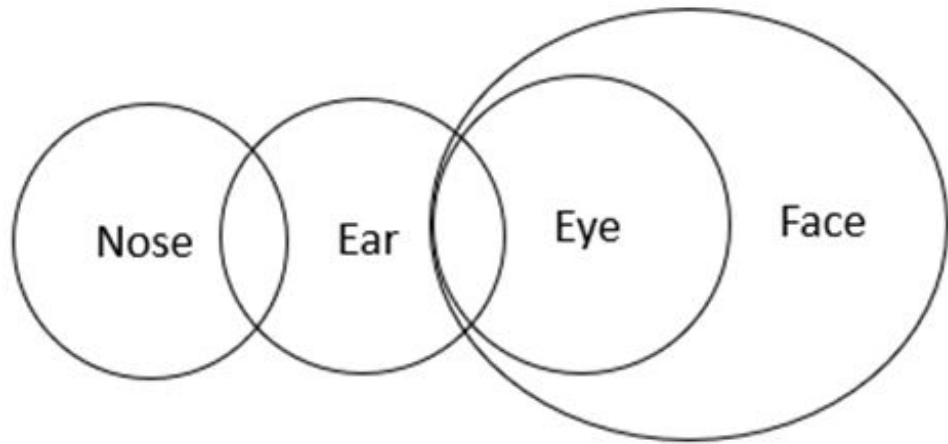

Conclusions:

- I. No which is what (True, as no who is how so no which is what)
- II. No which is who (True, as no who is how so no which is who)
- III. No how is what (True, as no who is how so no how is what)

32. Answer: E

Solution:

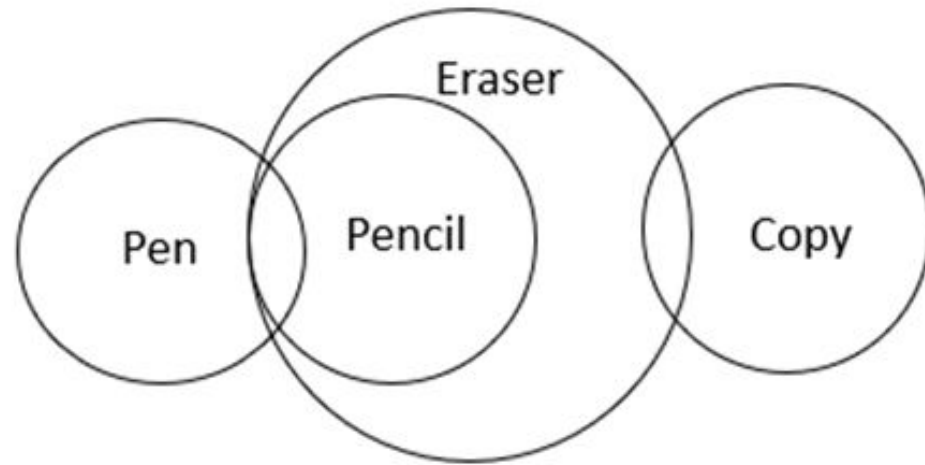

Conclusions:

- I. Some face are ear (True, as some eye which is face is ear)
- II. Some eye are nose (False, as no direct relation is given between these two)
- III. Some face are nose (False, as no direct relation is given between these two)

33. Answer:

Solution:

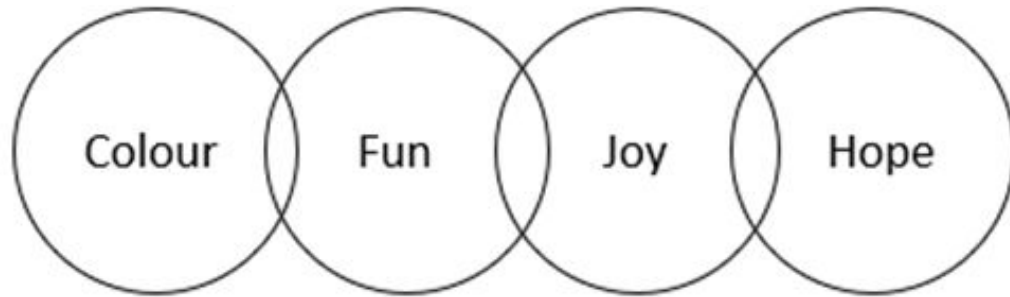

Conclusions:

- I. Some pen are copy (False, as no direct relation is given between these two)
- II. Some eraser are pen (True, as some pencil which is eraser is pen)
- III. Some copy are pencil (False, as no direct relation is given between these two)

34. Answer: C

Solution

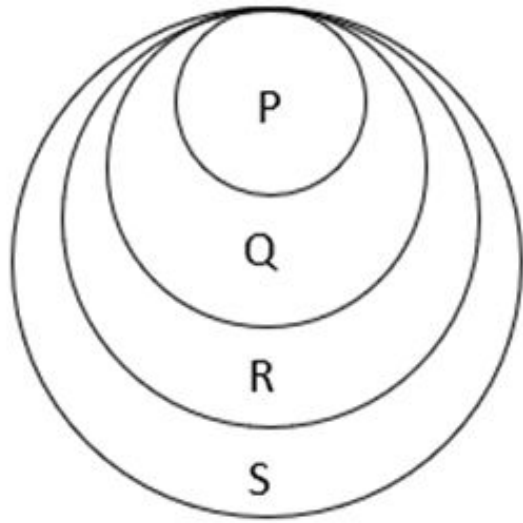

Conclusions:

- I. Some hope are fun (False, as no direct relation is given between these two)
- II. Some joy are colour (False, as no direct relation is given between these two)
- III. No hope is fun (False, as no direct relation is given between these two)

Here, there are two possibilities between hope and fun. Either some hope is fun or no hope is fun. Hence, the case will be either or.

35. Answer: D

Solution:

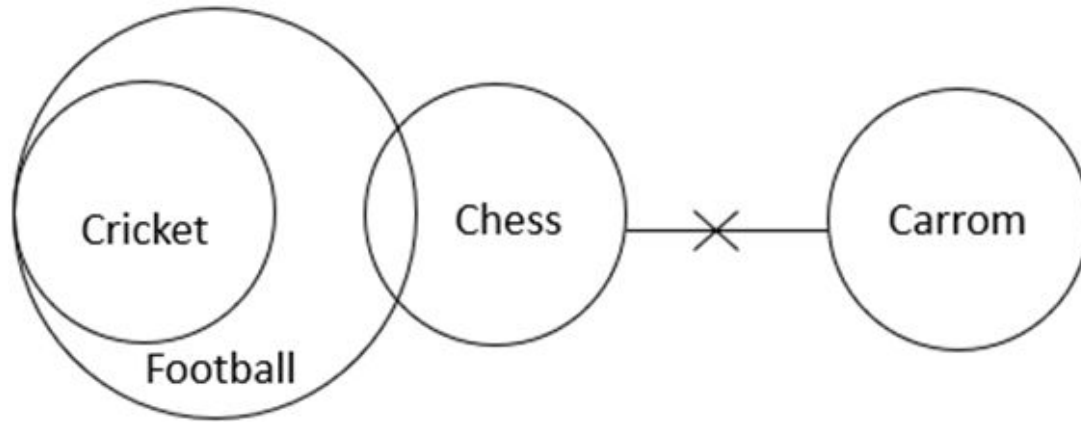

Conclusions:

- I. Some S are Q (True, as all Q are S so definitely some S are Q)
- II. All Q are S (True, as all Q are R and all R are S)
- III. Some R are P (True, as all P are R so definitely some R are P)

36. Answer: A

Solution:

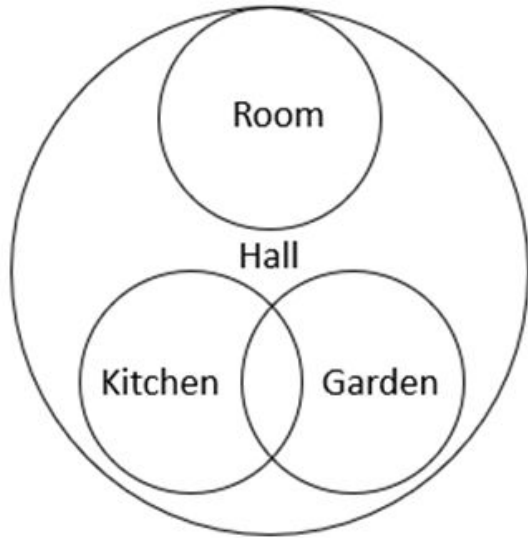

Conclusions:

- I. Some chess are cricket (False, as no direct relation is given between these two)
- II. No cricket is carrom (False, as no direct relation is given between these two)
- III. Some football are carrom (False, as no direct relation is given between these two)

37. Answer: E

Solution:

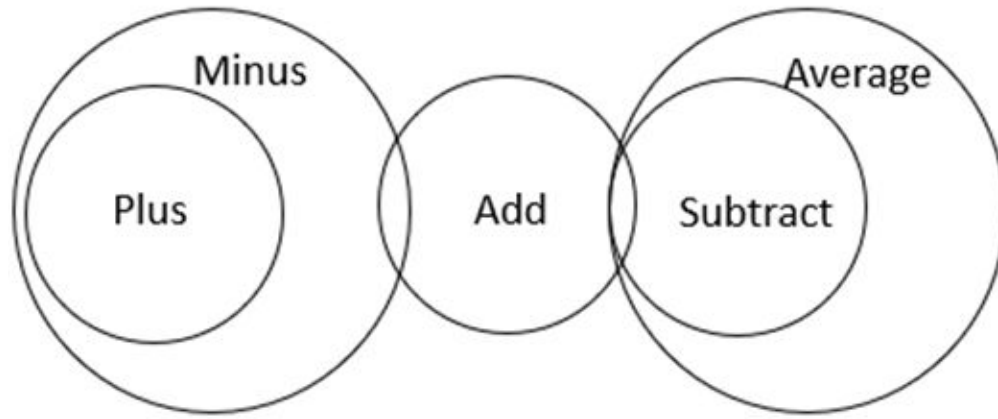

Conclusions :

- I. Some garden are room (False, as no direct relation is given between these two)
- II. All hall are kitchen (False, as we know all kitchen is hall but the reverse statement is not true)
- III. Some hall are garden (True, as all garden are hall so definitely some hall are garden)
- IV. Some kitchen are room (False, as no direct relation is given between these two)

38. Answer: C

Solution:

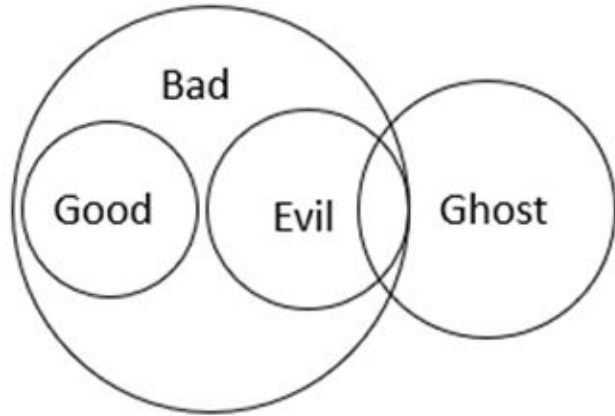

Conclusions:

- I. Some average are add (True, as some average which is subtract is add)
- II. Some add are both average and minus (False, as there is no relation mentions between average and minus)
- III. Some minus are plus (True, as all plus is minus so some minus is plus)
- IV. Some average are not subtract (False, as we know some average is subtract but we do not know the other part of average is subtract or not)

39. Answer: B

Solution:

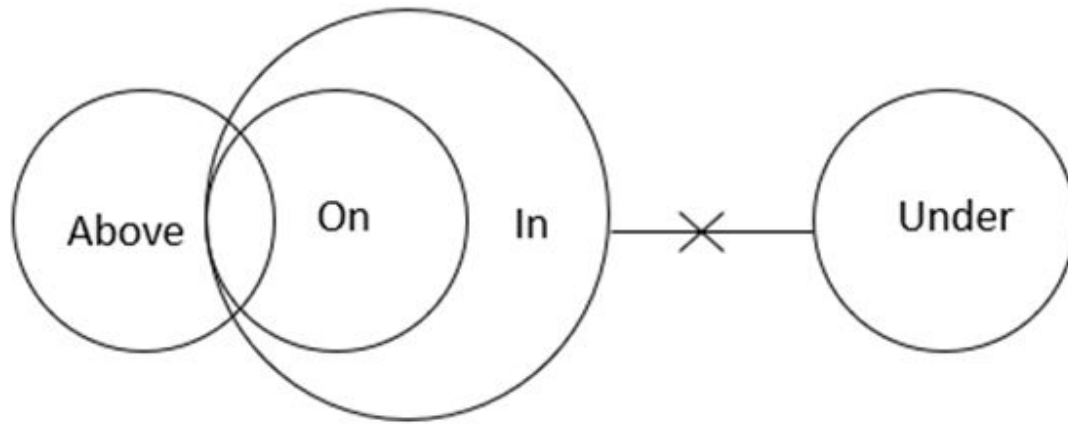

Conclusions :

- I. Some ghost are bad (True, as ghost which is evil is bad)
- II. Some good are ghost (False, as no direct relation is given between these two)
- III. Some good are evil (False, as no direct relation is given between these two)

40. Answer:

Solution:

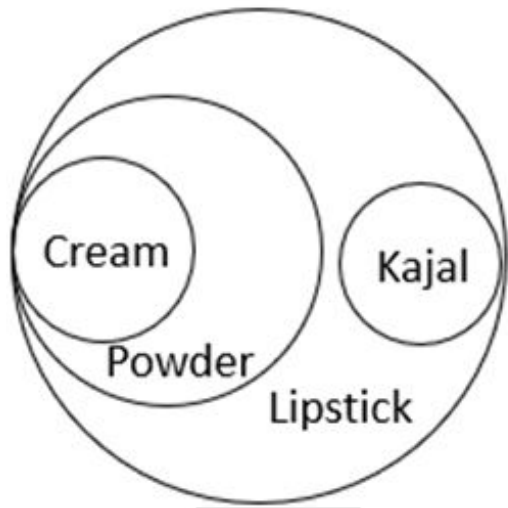

Conclusions:

- I. Some above are under (False, as no direct relation is given between these two)
- II. No on are under (True, as all on are in and no in is under so no on is under)
- III. Some above are in (True, as some above which is on is in)

41. Answer:

Solution:

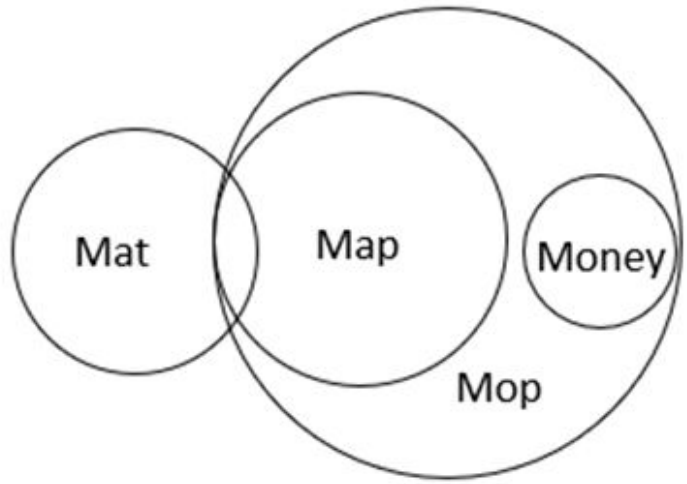

Conclusions

- I. Some powder are kajal (False, as no direct relation is given between these two)
- II. Some lipstick are cream (True, as all cream are powder and all powder are lipstick so some lipstick are cream)
- III. All cream are lipstick (True, as all cream are powder and all powder are lipstick so all cream are lipstick)

42. Answer: B

Solution:

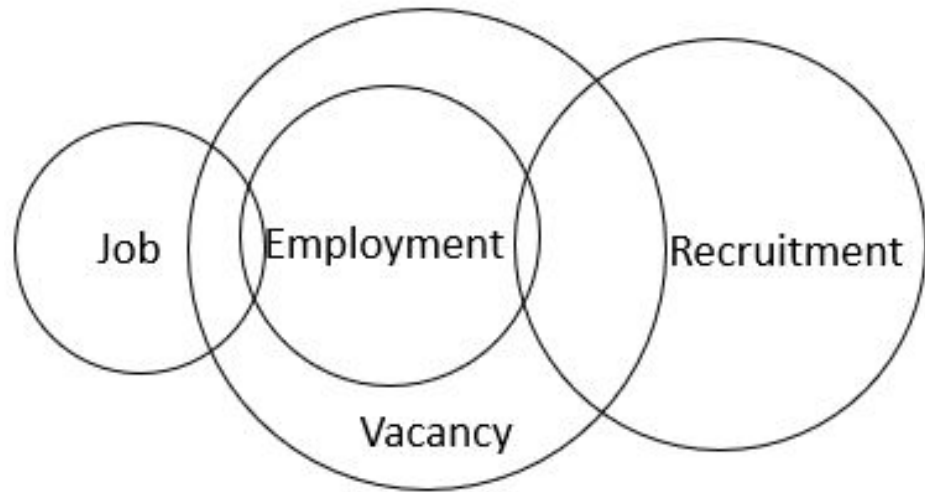

Conclusions :

- I. All money are map (False, as no direct relation is given between these two)
- II. Some mat are mop (True, as some mat which is map is mop)
- III. Some money are mat (False, as no direct relation is given between these two)

43. Answer: C

Solution:

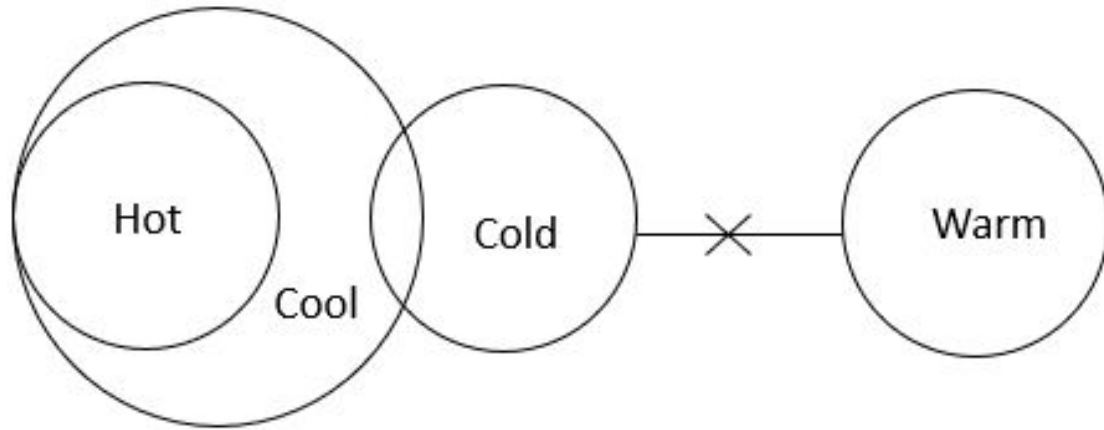

Conclusions

- I. Some vacancy are recruitment (True, as some vacancy which is employment is recruitment)
- II. Some job are vacancy (True, as some job which is employment is vacancy)
- III. All vacancy are employment (False, as we know all employment is vacancy but the reverse statement is not true)

44. Answer: C

Solution:

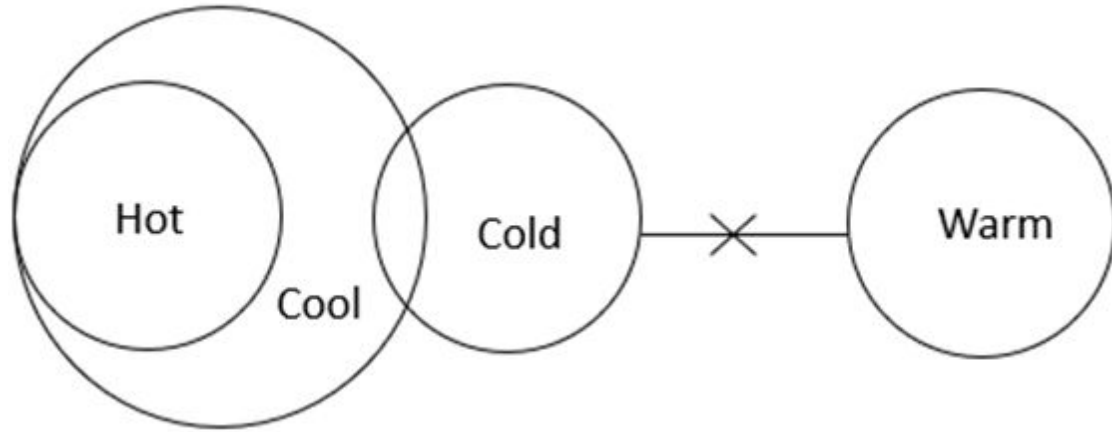

Conclusions:

- I. All hot being cold is a possibility (False, as no direct relation is given between these two)
- II. No warm is a cool (False, as no direct relation is given between these two)

45. Answer: B

Solution:

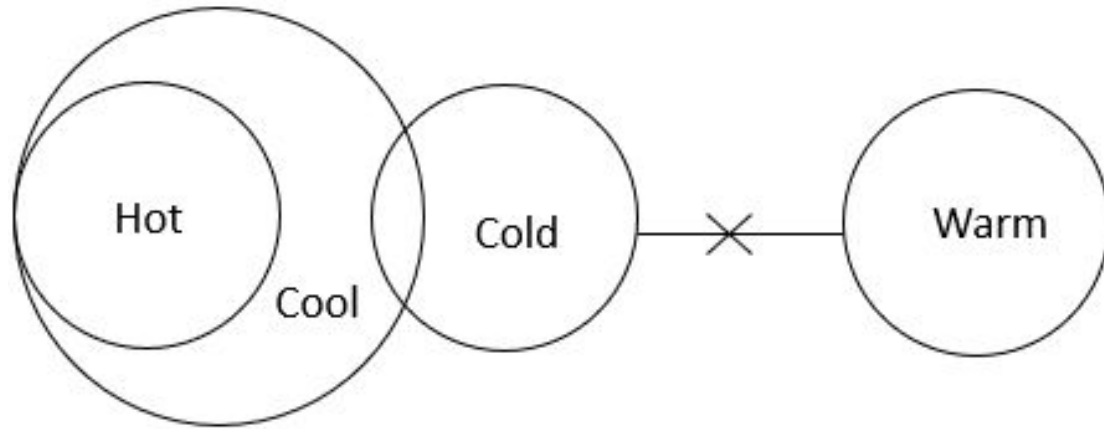

Conclusions:

- I. All warm being hot is a possibility (True, as no direct relation is given between these two therefore the possibility is true)
- II. At least some cool are hot (True, as it is given in the statement)

46. Answer: C

Solution:

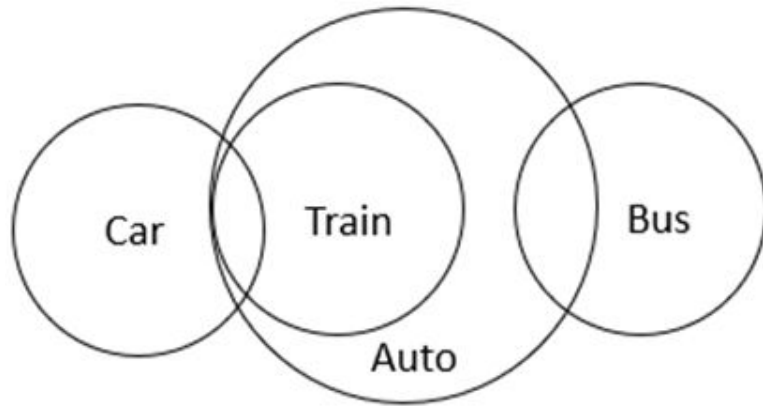

Conclusions:

- I. At least some warm are cool (False, as no direct relation is given between these two)
- II. No warm is hot (False, as no direct relation is given between these two)

47. Answer: A

Solution:

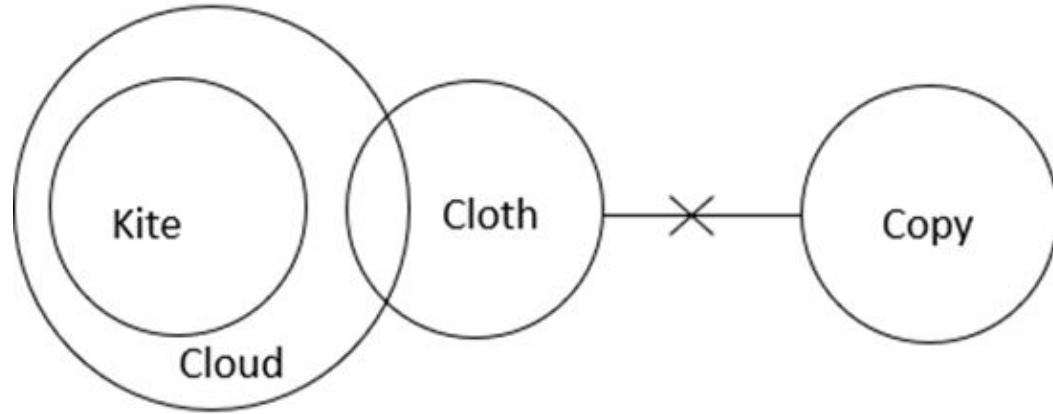

Conclusions:

- I. Atleast some train are bus (False, as no direct relation is given between these two)
- II. No train is a bus (False, as no direct relation is given between these two)

Here, there are two possibilities between train and bus. Either some train is bus or no train is bus. Hence, the case will be either or.

48. Answer: B

Solution:

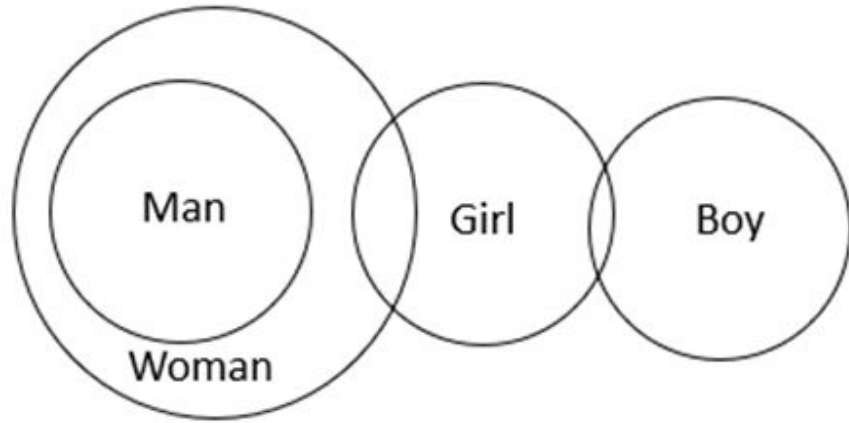

Conclusions :

- I. All cloud can never be copy (True, as some cloud which is cloth can never be copy)
- II. Atleast some cloud are kite (True, as all kite are cloud)

49. Answer: A

Solution:

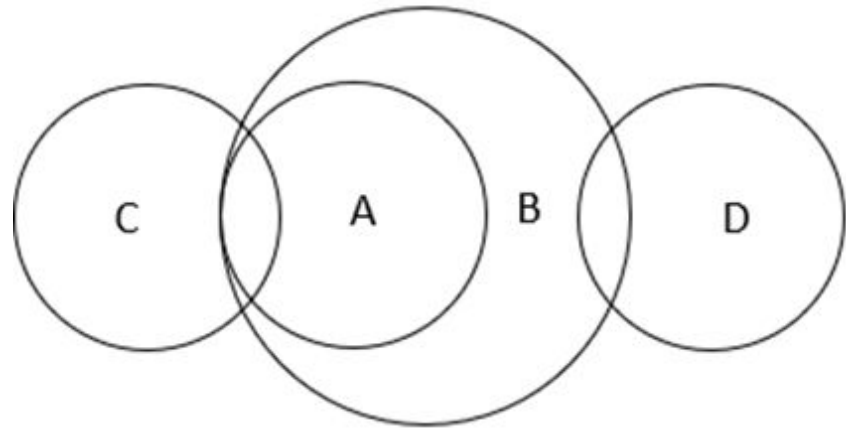

Conclusions:

- I. Some boy are woman (False, as no direct relation is given between these two)
- II. Some boy are man (False, as no direct relation is given between these two)
- III. Some girl can be woman (False, as it is a definite case)

50. Answer: D

Solution:

Conclusions:

- I. No D is a C is a possibility (True, as no direct relation is given between these two therefore the possibility is true)
- II. Some A which are B they must be a part of C (False, as some B which is A is C but some part of B which is A must be C is not true. If we use 'must' then it implies that A and C are equal which is not stated)
