

1. Statement:

$$N \geq S > W \geq B = X \geq J$$

Conclusions:

I) $N = J$

II) $S > X$

III) $X < W$

- (a) Only I and III are false
- (b) Only II is false
- (c) Only II and III are false
- (d) Only III is false
- (e) Only I and II are false

2. Statement:

$$H > I = L \geq K > L \leq T < V$$

Conclusions:

I) $H > L$

II) $V > L$

- (a) Only I follows
- (b) Only II follows
- (c) Either I or II follows
- (d) None follows
- (e) Both follow

3. Statements:

$$W > V = U \geq T > S \leq K < I$$

Conclusions:

I) $V \geq I$

II) $I > U$

- (a) Only I follows
- (b) Only II follows
- (c) Either I or II follows
- (d) None follows
- (e) Both follow

4. Statements:

$$Z \leq Y < C = S \geq I > O = D$$

Conclusion:

I) $Y > D$

II) $S > Z$

- (a) Only I follows
- (b) Only II follows
- (c) Either I or II follows
- (d) None follows
- (e) Both follow

5. Statements:

$$W > V = U \geq T > S \leq K < I$$

Conclusions:

I) $W > S$

II) $I > T$

- (a) Only I follows
- (b) Only II follows
- (c) Either I or II follows
- (d) None follows
- (e) Both follows

6. Statements:

$$M \geq G > H \leq B \leq F > W > I$$

Conclusions:

I) $M \geq F$

II) $B > I$

- (a) Only I follows
- (b) Only II follows
- (c) Either I or II follows
- (d) None follows
- (e) Both follows

7. Statements:

$$Z \leq Y < A = S \geq I > O = D$$

Conclusion:

I) $A > D$

II) $S > Z$

- (a) Only I follows
- (b) Only II follows
- (c) Either I or II follows
- (d) None follows
- (e) Both follows

8. Statements

$$A \leq Y < C \geq W, Y > E = U \leq G$$

Conclusions

I) $C > E$

II) $A < U$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

9. Statements

$K \geq Y = M < Q, O \leq J < P = Y$

Conclusions

I) $K > O$

II) $J < Q$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

10. Statement:

$Z < Y = X \geq W, U = X \leq V > T$

Conclusions

I) $W < U$

II) $U = W$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

11. Statements

$G > K \leq E < J, C \leq I = A > E$

Conclusions

I) $I < J$

II) $C > K$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

12. Statements

$Z \geq Y > P \leq O, N \leq J > I = O$

Conclusions

I) $Y < J$

II) $O < J$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

13. Statement.

$$K \leq J = I, E > G < F, J \leq H < E$$

Conclusions

I) $E > K$

II) $J < G$

(a) Only conclusion I follow

(b) Only conclusion II follows

(c) Both conclusion I and conclusion II follow

(d) Either conclusion I or conclusion II follows

(e) Neither conclusion I nor conclusion II follows

14. Statements

$$Q > P = O, L < N > K, P \geq N < M$$

Conclusions

I) $L > Q$

II) $K < O$

(a) Only conclusion I follow

(b) Only conclusion II follows

(c) Both conclusion I and conclusion II follow

(d) Either conclusion I or conclusion II follows

(e) Neither conclusion I nor conclusion II follows

15. Statements

$$Z \geq Y < X, W \geq V = Y, T = S \leq V$$

Conclusions

I) $Z = S$

II) $S < Z$

(a) Only conclusion I follow

(b) Only conclusion II follows

(c) Both conclusion I and conclusion II follow

(d) Either conclusion I or conclusion II follows

(e) Neither conclusion I nor conclusion II follows

16. Statements:

$$Z > X = Y \geq G; S \geq I \leq N = G$$

Conclusions:

I) $X > I$

II) $Z > S$

III) $Y > I$

(a) Only conclusion II and III is true

(b) Only conclusion I is true

(c) Only conclusion II is true

(d) None of the conclusions is true

(e) Only conclusion I and III are true

17. Statements:

$K > Z \geq W = V \geq U$; $T < S < X = J \leq U$

Conclusions:

I) $W > S$

II) $X \leq Z$

III) $K > W$

(a) Only conclusion II and III is true

(b) Only conclusion I is true

(c) Only conclusion II is true

(d) All the conclusions are true.

(e) Only conclusion I and III are true

18. Statements:

$20 > 21 \leq 22 < 23 > 24$; $23 < 31 \leq 19 = 17$

Conclusions:

I) $21 < 17$

II) $20 \geq 31$

III) $19 > 20$

(a) Only conclusion II and III are true

(b) Only conclusion I is true

(c) Only conclusion II is true

(d) All the conclusions are true

(e) Only conclusion III is true

19. Statement:

$$X \geq W, Z < Y, V = W, Y < X$$

Conclusions:

I) $X > V$

II) $Z \geq V$

- (a) Only conclusion A follows
- (b) Only conclusion B follows
- (c) Either Conclusion A or B follows
- (d) Neither conclusion A nor B follows
- (e) Both conclusions A and B follow

20. Statements:

$$M \geq P > K, I < G \leq H, K \leq I$$

Conclusion:

I) $P < G$

II) $I < H$

- (a) If only conclusion I is true.
- (b) If only conclusion II is true.
- (c) If either conclusion I or II is true.
- (d) If neither conclusion I nor II is true.
- (e) If both conclusion I and conclusion II are true.

21. Statement:

$$Y \leq Z, Y > X, W > X, V < W$$

Conclusions:

I) $Z > X$

II) $Y < W$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Either Conclusion I or II follows
- (d) Neither conclusion I nor II follows
- (e) Both conclusions I and II follow

22. Statements:

$$Z < N, L \leq N < Y > B \leq G$$

Conclusions:

I) $Z = L$

II) $B < Z$

- (a) Both follow
- (b) None follow
- (c) Only I follow
- (d) Only II follow
- (e) Either I or II follow

23. Statements:

$K \geq U > X$, $W > N \leq P$, $W \geq X$

Conclusion:

I) $X < N$

II) $U > P$

- (a) If only conclusion I is true.
- (b) If only conclusion II is true.
- (c) If either conclusion I or II is true.
- (d) If neither conclusion I nor II is true.
- (e) If both conclusion I and conclusion II are true

24. Statement:

$P < I < G$, $K = O = G$, $K > T$

Conclusion:

I) $I < K$

II) $G > T$

- (a) If only conclusion I is true.
- (b) If only conclusion II is true.
- (c) If either conclusion I or II is true.
- (d) If neither conclusion I nor II is true.
- (e) If both conclusion I and conclusion II are true.

25. In the following questions, the statements are followed by conclusions. Study the conclusions based on the given statements and select the appropriate option as your answer.

$$Q < P < O \leq K = I \leq G < X$$

I) $O \leq X$

II) $G > Q$

- (a) Only II follow
- (b) Both I and II follow
- (c) Either I or II follow
- (d) None follow
- (e) Only I follow

26. Statements:

$$H > I = J \geq K, N \leq L < M = P, L > H > K > O$$

Conclusions:

I) $M \geq K$

II) $P > J$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

27. Statement:

$$Z = Y \leq X < W, \quad W < V > Y > U, \quad C < B < Z < A$$

Conclusions:

I) $V > B$

II) $X \leq A$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

28. Statements:

$$C < B < A = P, \quad B > O = H > G, \quad A > O \geq L \geq I$$

Conclusions:

I) $P < G$

II) $H < L$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

29. Statements:

$$Y \geq X \leq W > U, \quad X > Z < L$$

Conclusions:

I) $Y > L$

II) $L \geq Y$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

30. Statements:

$$K < J \leq I > H, \quad N > H > M$$

Conclusions:

I) $N > J$

II) $K < M$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

31. Statements:

$X \leq W < V \geq U < T, W > L \geq P$

Conclusions:

I) $W > P$

II) $V > P$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

32. Statements:

$N > M = L < K \leq J, I > H \leq J$

Conclusions:

I) $M \leq H$

II) $L < H$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

33. Statements:

$K \geq N > E \leq F, G \leq F > O$

Conclusions:

I) $O < N$

II) $E \leq G$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

34. Statements:

$Z > X < W < Y, W > V < U$

Conclusions:

I) $Z > V$

II) $V < Y$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

35. Statement:

$R > Q > P = O \leq N, P > T \leq S > K$

Conclusions:

I) $Q > S$

II) $T < N$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

36. Statement:

$Z \leq Y = X, W < V \geq U < Z$

Conclusions:

I) $U < Y$

II) $Z > W$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

37. Statements:

$K \geq J > I = H < G, I > E \leq F$

Conclusions:

I) $E < K$

II) $H \leq F$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

38. Statements:

$O < N < M > L, K \leq J = I \geq L$

Conclusions:

I. $J < N$

II. $N \leq I$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

39. Statements:

$U < S > K \leq Z, E > Y \geq K$

Conclusions:

I) $Y \geq U$

II) $E > Z$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

40. Statements:

$H = G \geq F > E > D < C, E > G \geq L < N$

Conclusions:

I) $C \geq E$

II) $L < H$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

41. Statements:

$D < C \geq B = A, F \leq E < B \geq P$

Conclusions:

I. $C > F$

II. $P \leq C$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

42. Statements:

$I \geq N < M = L, H \geq M > Z$

Conclusions:

I) $Z < N$

II) $H > N$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

43. Statements: $R \geq Q \leq P \geq O$, $P \geq K = Z$

Conclusions:

I) $O \geq K$

II) $R \geq Z$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

44. Statements:

$Y = X > W \neq V$, $L < Z > X$

Conclusions:

I) $W < Z$

II) $W \geq Z$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

45. Statement:

$Z = Y \neq X = W$

Conclusions:

I) $Z > W$

II) $X > Y$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

46. Statement:

$L > X \leq O < R$, $R < N \geq M$

Conclusions:

I) $X < N$

II) $L \geq M$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

47. Statement:

$J > I > L \geq C, C < K \leq Y$

Conclusions:

I) $J > C$

II) $L < K$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

48. Statements:

$Z \geq Y > X < W \geq U > T < S$

Conclusions:

I) $T < W$

II) $X < S$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion II follow
- (d) Either conclusion I or conclusion II follows
- (e) Neither conclusion I nor conclusion II follows

49. Statement:

$Z = Y \geq X > W < V \leq U, X > T \geq W < R$

Conclusion:

I) $T < V$

II) $Z > R$

III) $R \geq Y$

- (a) Only conclusion I follow
- (b) Only conclusion II follows
- (c) Both conclusion I and conclusion III follow
- (d) Either conclusion II or conclusion III follows
- (e) None follow

50. Statement:

$Q > P < O \leq N = M > L, P \leq K < J > R$

Conclusion:

I) $Q > J$

II) $N > R$

III) $M < J$

(a) Only conclusion I follow

(b) Only conclusion II follows

(c) Both conclusion II and conclusion III follow

(d) Both conclusion I or conclusion III follow

(e) None follows

1. Answer: A

- I) $N = J$ (False, as $N \geq S > W \geq B = X \geq J$)
- II) $S > X$ (True, as $S > W \geq B = X$)
- III) $X < W$ (False, as $W \geq B = X$)

2. Answer: E

- I) $H > L$ (True, as $H > I = L \geq K > L$)
- II) $V > L$ (True, $L \leq T < V$)

3. Answer : C

- I) $V \geq I$ (False, as $V = U \geq T > S \leq K < I$)
 - II) $I > U$ (False, as $V = U \geq T > S \leq K < I$)
- V and U are the same. V is either less or greater or equal to I.

4. Answer: B

- I) $Y > D$ (False, as $Y < C = S \geq I > O = D$)
- II) $S > Z$ (True, as $Z \leq Y < C = S$)

5. Answer: A

- I) $W > S$ (True, as $W > V = U \geq T > S$)
- II) $I > T$ (False, as $T > S \leq K < I$)

6. Answer : D

- I) $M \geq F$ (False, as $M \geq G > H \leq B \leq F$)
- II) $B > I$ (False, as $B \leq F > W > I$)

7. Answer: E

- I) $A > D$ (True, as $A = S \geq I > O = D$)
- II) $S > Z$ (True, as $Z \leq Y < A = S$)

8. Answer: A

- I) $C > E$ (True, as $E < Y < C$)
- II) $A < U$ (False, as $A \leq Y > E = U$)

9. Answer: C

- I) $K > O$ (True, as $O \leq J < P = Y \leq K$)
- II) $J < Q$ (True, as $J < P = Y = M < Q$)

10. Answer: D

- I) $W < U$ (False, as $U = X \geq W$)
 - II) $U = W$ (False, as $U = X \geq W$)
- W is either less or equal to U.

11. Answer: E

I) $I < J$ (False, as $I = A > E < J$)

II) $C > K$ (False, as $C \leq I = A > E \geq K$)

12. Answer: B

I) $Y < J$ (False, as $Y > P \leq O = I < J$)

II) $O < J$ (True, as $J > I = O$)

13. Answer: A

I) $E > K$ (True, as $K \leq J \leq H < E$)

II) $J < G$ (False, as $J \leq H < E > G$)

14. Answer: B

I) $L > Q$ (False, as $L < N \leq P < Q$)

II) $K < O$ (True, as $K < N \leq P = O$)

15. Answer: D

I) $Z = S$ (False, as $Z \geq Y = V \geq S$)

II) $S < Z$ (False, as $Z \geq Y = V \geq S$)

S is either less or equal to Z.

16. Answer: D

I) $X > I$ (False, as $X = Y \geq G = N \geq I$)

II) $Z > S$ (False, as $Z > X = Y \geq G = N \geq I \leq S$)

III) $Y > I$ (False, as $Y \geq G = N \geq I$)

17. Answer: D

I) $W > S$ (True, as $S < X = J \leq U \leq V = W$)

II) $X \leq Z$ (True, as $X = J \leq U \leq V = W \leq Z$)

III) $K > X$ (True, as $X = J \leq U \leq V = W \leq Z < K$)

18. Answer: B

I) $21 < 17$ (True, as $21 \leq 22 < 23 < 31 \leq 19 = 17$)

II) $20 \geq 31$ (False, as $20 > 21 \leq 22 < 23 < 31$)

III) $19 > 20$ (False, as $20 > 21 \leq 22 < 23 < 31 \leq 19$)

19. Answer: D

I) $X > V$ (False, as $X \geq W = V$)

II) $Z \geq V$ (False, as $Z < Y < X \geq W = V$)

20. Answer: B

I) $P < G$ (False, as $P > K \leq I < G$)

II) $I < H$ (True, as $I < G \leq H$)

21. Answer: A

I) $Z > X$ (True, as $Z \geq Y > X$)

II) $Y < W$ (False, as $W > X < Y$)

22. Answer: B

I) $Z = L$ (False, as $Z < N \geq L$)

II) $B < Z$ (False, as $Z < N < Y > B$)

23. Answer: D

I) $X < N$ (False, as $X \leq W > N$)

II) $U > P$ (False, as $U > X \leq W > N \leq P$)

24. Answer: E

I) $I < K$ (True, as $K = O = G > I$)

II) $G > T$ (False, as $G = O = K \geq T$)

25. Answer: A

I) $O \leq X$ (False, as $O \leq K = I \leq G < X$)

II) $G > Q$ (True, as $Q < P < O \leq K = I \leq G$)

26. Answer: B

I) $M \geq K$ (False, as $M > I = J > K$)

II) $P > J$ (True, as $J = I < P$)

27. Answer: A

I) $V > B$ (True, as $B < Z = Y < V$)

II) $X \leq A$ (False, as $X \geq Y = Z < A$)

28. Answer: E

I) $P < G$ (False, as $P = A > B > O = H > G$)

II) $H < L$ (False, as $H = O \geq L$)

29. Answer: D

I) $Y > L$ (False, as $Y \geq X > Z < L$)

II) $L \geq Y$ (False, as $Y \geq X > Z < L$)

30. Answer: E

I) $N > J$ (False, as $J \leq I > H < N$)

II) $K < M$ (False, as $K < J \leq I > H > M$)

31. Answer: C

- I) $W > P$ (True, as $W > L \geq P$)
- II) $V > P$ (True, as $P \leq L < W < V$)

32. Answer: D

- I) $M \leq H$ (False, as $M = L < K \leq J \geq H$)
- II) $L > H$ (False, as $M = L < K \leq J \geq H$)

33. Answer: E

- I) $O < N$ (False, as $N > E \leq F > O$)
- II) $E \leq G$ (False, as $E \leq F \geq G$)

34. Answer: B

- I) $Z > V$ (False, as $Z > X < W > V$)
- II) $V < Y$ (True, as $Y > W > V$)

35. Answer: B

- I) $Q > S$ (False, as $Q > P = O > T \leq S$)
- II) $T < N$ (True, as $N \geq P = O > T$)

36. Answer: A

- I) $U < Y$ (True, as $U < Z \leq Y$)
- II) $Z > W$ (False, as $W < V \geq U < Z$)

37. Answer: A

- I) $E < K$ (True, as $K \geq J > I > E$)
- II) $H \leq F$ (False, as $H = I > E \leq F$)

38. Answer: D

- I) $J < N$ (False, as $J = I \geq L < M > N$)
- II) $N \leq I$ (False, as $J = I \geq L < M > N$)

There are only three relations can be established between J which is equal to I and N. N can be greater than J, N can be less than J and N can be equal to J.

Hence, the answer will be either or.

39. Answer: E

- I) $Y \geq U$ (False, as $U < S > K \leq Y$)
- II) $E > Z$ (False, as $E > Y \geq K \leq Z$)

40. Answer: E

- I) $C \geq E$ (False, as $E > G \geq F > E > D < C$)
- II) $L < H$ (False, as $H = G \geq L$)

41. Answer: C

I) $C > F$ (True, as $X \geq B = A > E \geq F$)

II) $P \leq C$ (True, as $C \geq B = A \geq P$)

42. Answer: B

I) $Z < N$ (False, as $N < M = L > Z$)

II) $H > N$ (True, as $N < M = L \leq H$)

43. Answer: E

I) $O \geq K$ (False, as $O \leq P \geq K$)

II) $R \geq Z$ (False, as $R \geq Q \leq P \geq K = Z$)

44. Answer: A

I) $W < Z$ (True, as $Z > Y = X > W$)

II) $W \geq Z$ (False, as $Z > Y = X > W$)

45. Answer: D

I) $Z > W$ (False, as $Z = Y \neq X = W$)

II) $X > Y$ (False, as $Z = Y \neq X = W$)

Here, Z is equal to Y and X is equal to W. In the statement we can see that Y is not equal to X which means Y is either greater or less than X. Certainly, Z is either greater or less than W.

Hence, either I or II follow.

46. Answer: A

I) $X < N$ (True, as $X \leq O < R < N$)

II) $L \geq M$ (False, as $L > X \leq O < R < N \geq M$)

47. Answer: A

I) $J > C$ (True, as $J > I > L \geq C < K$)

II) $L < K$ (False, as $L \geq C < K$)

48. Answer: A

I) $T < W$ (True, as $W \geq U > T$)

II) $X < S$ (False, as $X < W \geq U > T < S$)

49. Answer: D

I) $T < V$ (False, as $T \geq W < V$)

II) $Z > R$ (False, as $Z = Y \geq X > W < R$)

III) $R \geq Y$ (False, as $Z = Y \geq X > W < R$)

Z and Y are the same. R is either less or equal or greater than Z.

50. Answer: E

I) $Q > J$ (False, as $Q > P \leq K < J$)

II) $N > R$ (False, as $N \geq O > P \leq K < J > R$)

III) $M < J$ (False, as $M = N \geq O > P \leq K < J > R$)
